Vol. X Ed. 5 Wrangell Institute, Wrangell, Alaska February 1964

## WORD PICTURES OF WRANGELL

Wrangell Institute has two large dorms for the many girls and boys who stay there for nine whole months. They are separated by the three story school building.

The dorms are yellowish with dark green roofs.

Behind the school and dorms there stands a low one story building which is our dining hall.

For the background there are tall green evergreen trees and two steep hills forming a deep valley.

Lying in front of the Institute buildings is a broad road for cars and working vehicles to travel on. Further down there is a salty body of sea water.

On a clear sunny day one could see all of these things put together to make a wonderful picture of Wrangell Institute.

.....Doris Oksoktaruk

Looking out toward the bay are mountains of small size. When the sun is shining a majestic peak stands above the other peaks. The white shining snow makes the peak a colorful figure.

Under a mountain on the opposite side of the gigantic mountain peak, a school stands. The schoolhouse stands in between the two dorms. On the northern side is the boys' dorm and on the southern side of the school building is the girls' dorm. Below the school are three enormously tall trees. Of the three one is the tallest. It is the one nearest to the wharf. The wharf is built of logs stretching a distance out into the bay. The tide comes up very high and lowers a distance into the bay.

This place, Wrangell Institute, is usually cloudy and rains a lot.

.....Herman Hess

Wrangell Institute is a lovely place about five miles from the town of Wrangell. It consists of eight buildings on an about an acre of land. The Shoemaker's Bay glitters under the bright sun. A

small island sticking out of the bay and the distant mountains silhouette themselves against the clear blue sky (except on stormy days). Beautiful tree covered mountains surround the campus and proudly stand into the sky. The fluffy white clouds dance about in the sky like sheep.

In front of the school and dorms is a beautiful green grass covered lawn. So many little children happily play on it. The tall green trees overlook the campus like kings near the beach. The waves gently lap against the beach. A long dock sticks out into the bay and squares off at the end like a broken finger. Nature has made the surroundings beautiful and lovely to look at.

.....Andrew Angaiak

The day is sunny and clear. From the beach looking toward the Institute, a pretty picture arises. The peaks of the mountains are painted white with the pretty glistening snow.

On the mountains, beautiful, huge, evergreens loom upward toward the sky. At the base of the mountains, you can see three medium sized buildings. The middle building is the students' school. To the right, connected to the school by an arcade, is the girls' dorm. To the left, the boys' dorm is also connected to the school by an arcade. (Continued, Editor's Box)

## WORD PICTURES OF WRANGELL

In our Freshman English classes we have been learning to improve our writing and speaking by effectively using adjectives and adverbs. All 9th-grade students were given this problems: "You would like to send pictures of your surroundings to a friend, but you do not have a camera. Try to make the best possible "word picture" to send to your friend. The best ones were chosen for the school paper."  
.....Mrs. Curtis

## JUNEAU VISITOR

Mr. Stephen W. Smith, Assistant Area Director (Administration) from the Juneau Office arrived in Wrangell on February 5, 1964. Mr. Smith met all of the teachers while visiting their in-service training session.

He departed for Juneau, February 6.

## TRANSFER TO JUNEAU

Mrs. Judith Ann Churchill, clerk-typist Guidance, has accepted a transfer to the Juneau Office.

Mrs. Churchill started working at Wrangell, August 3, 1959. In Juneau, she will serve as a clerk-typist in the Education office.

She expects her last day at Wrangell to be February 14, 1964.

Lucy

## CRAFTS IN ROOM G

A couple of weeks ago, in Room G, some boys started to practice on leather work. Some of them are making things they can use like belts, notebooks, and so forth. Some other boys and girls, who are also interested in crafts, are doing silk screening.

Anyone can come to Room G if he wants to try making a belt, notebook, or other leather work. Mr. and Mrs. Curtis will show you how to do leather work and silk screening.

Charlie Kashatok

## TRAPPING

February is the time when beaver trappers start getting ready for trapping. Some go by plane, others by dog sled. About the fifteenth of March the season closes and all beaver snares are supposed to be taken in. The limit is 15 beavers for one person.

Most trappers come home with tan faces and long beards. They have good times with their folks. Everyone enjoys listening to the tales they tell about trapping.

About the twentieth of March the trappers go to the fur markets to sell their beaver skins. When the skins have been sold the Beaver Round-up begins. Men with dogs have dog races, then boxing, turkey shooting, and snowshoe racing are enjoyed.

Beaver Round-up lasts about a week. Then people go home and work on their home duties.

Albert Akmayuke

## LIVING THINGS ARE ALIKE

In Room H we are learning how all living things are alike. Animals can move, breathe, use food, grow, produce young, and respond to a stimulus. Plants can do these things also.

We also learned that "stimuli" are messages such as light, sound, and odor, and that "response" is what the animal or plant does when it receives a stimulus.

Sandra Malland

Lucy

## SOCIAL STUDIES

Exploring American Neighbors is our social studies book. Each time we read further in the book we got more interested in it. After we finish a chapter, we would have a test to see how well we remembered it. Some of us were not doing very well so we started taking notes about important parts of the chapter. We found out that it helps a lot to take notes. We are bringing our ranks up to a higher grade. This shows that we are studying and reading our notes.

We have now finished our social studies text and completed the workbook. As we studied about Canada we followed along with maps which we are making. On the maps we put provinces, cities, capitals, products, explorers, important lakes, rivers, etc. We are doing a good job. Most of us have finished our maps. They look nice.

We are all looking forward to another book in social studies as interesting as Exploring American Neighbors.

Anastasia Kashevarof

For the past few weeks of school Group H has been improving in their work. We have finished our social studies book and we are now reviewing it. We are just about through with our English and science books.

Students in Room H have been trying real hard to improve their work with the help of our teacher Mrs. Dow. We are proud to say that in most of our subjects our grades are coming up to a higher rank and by the time the next report cards are sent home we hope to have better grades, but we all must keep on working very hard. We are all trying and hope to raise those C's, D's and F's to a better grade. If we keep studying, we can do it.

Vivian Duncan

## USING GYM AT NIGHT

Mr. Brown, our recreation adviser, has started a new program in the gym at night. Those who want to use the gym at night sign up for a certain night and go there each night and go there each week. This way everyone who enjoys using the gym during the week has a chance to do so.

Frank Keilner

Wrangell Eagle, February 1964

# WHO'S WHO?

Henrietta Johnson

She has black hair and brown eyes, some real cool records, a secret S.P., a bright smile, a pair of sneakers and a blue nylon jacket.

She likes rain because it is her chance to stay in and do her homework.

She really likes school a lot and is going to try to finish high school. She will try to be a dental assistant.

She likes all kinds of sports. Her favorite song is "Hopeless."

WHO???

He is a nice kid, and one of the top twist-ers. He is teased a lot, but does not seem to mind at all. He has brisk hair and does not bother to comb it.

His favorite color is yellow. He likes the song "I Dig Girls," and the foods lemon pudding, cookie dough and fish. He also likes to act. He was LIL MISS MUFFET in his classroom play.

WHO???

READ AHEAD FOR ANSWERS.

## HOBO DANCE

On February 1, 1964 we had a Hobo Dance. It sure was mighty good to go in jeans or other clothes to dance, instead of dressing up in slacks, white shirt and shiny shoes. We danced the same way as usual, but it felt more better in the way we dressed. I wore jeans and a faded shirt to the dance. I really enjoyed the dance that night. I wish we could have another Hobo Dance soon, but I guess we won't.

Adam Linn

On Feb. 1, 1964 we had a Hobo Dance, the dance started from 7:00 till 9:30 P.M. We all had fun at the dance, because we wore what we wanted to the dance.

Some students wore baggy shirts with jeans with buttons open to look catty, I guess; and some wore hats.

We all had fun, we are looking forward to the future dances and to having more fun as we did at the Hobo Dance.

... Nellie Gallahorn

## BIGGEST AND KOOLEST EVENT

One of the few opportunities we get is to see a band of some sort play, but Jan. 30, 1964 was a great day I'm sure you all will agree with me, for the "koolest" cats came to the institute to play for you and I. (The Rhythm Rascals as Mr. Sorenson called them.) When lis-

tening to them it made me want to twist sitting down. I know that you all enjoyed listening to them play. The way they played "Was Out of This World."

... Barbara Swanson

On Jan. 29, 1964, there was an assembly at the school gym. It started at 3:00 P. M., and ended about 4:30.

There were four men playing guitars, drums, and another kind of instrument. Then sang some songs, played, then they left after supper. We all enjoyed it.

...Carl Brown

The "Rythme Rascals", Ray Elair, Bob Newman, Art Orr and Gerald Lemb came here from Ketchikan, Alaska on January 30, 1964, to play and sing songs for us. During their stay here many of us got their autographs.

One of the many songs they played, I'm sure everyone enjoyed was "Perculator Twist." During another song a man put on a scarf and sang like a girl, it was very silly. Everyone enjoyed having them here and wish they had stayed longer.

...Carol Curtis

## SUNNY WRANGELL

On the past days, Wrangell have been pretty sunny. We all like the weather. It hasn't been raining much, but it snowed sev-

## SUNNY WRANGELL (Cont.)

eral times. But the snow always melt on the next morning. Also, the days are getting longer.

...Matthew Iya

### A SQUAD

Our A squad will be going to Mt. Edgecumbe on Feb. 7 and 8. They will leave Thursday night and come back on the following Monday.

This is the first time Wrangell Institute has had a team to go traveling and play.

We raised the money on the last two games in town about \$70.00 and the Institute Student Council voted to give in \$35.00 for the A squad to spend on useful things they will need on their trip.

...Arnold Garner

### BASKETBALL

Basketball is a very good sport to play. Almost everyone enjoys playing basketball. During P. E., both the boys and girls are now playing basketball.

Here in Wrangell Institute we have an "A & B" Squad. Or we did have a "B" squad. The "B" squad separated now, they will play with the intramurals now. The A squad will go play Mt. Edgecumbe in February. They are lucky to go there because they will see the friends and relatives they have there.

...Robert Lane

Last Sunday (Jan. 19) the Vikings and the Chilkats played against each other. The game started at 1:30 P. M. and ended at 2:30 P. M. It was a very exciting game with the Vikings winning.

Right after that game, the Hawks played the Warriors. It also proved to be an exciting game. The Hawks were ahead most of the time except in the last quarter

when the opposing team got ahead by one point. We had only seconds to play when Earl John, one of my teammates, made a basket which put us one point ahead. A few seconds later, the game ended. We had a 49-48 lead. I was playing with the Hawks.

I hope we'll win the next game we play against one of the teams. So the Malamutes had most wins and least losses.

...Andrew Angaiak

### GIRLS' BASKETBALL

We, girls, are practicing basketball, Mr. Brown teaches us on Mondays and Fridays after school. Mrs. Curtis teaches us during P. E. on Mondays and Wednesdays. Some girls are learning fast. Some are slow in learning.

When Mr. Brown teaches us, we do some exercises then we play a game. He chooses some girls to play. The girls with dark shirts are on one side and the ones with light-colored shirts are on the other side. In P.E., we have captains and teams. There are three teams in Key 1. The teams play against each other. We have lots of fun.

...Eliza Simon

### "JANUARY"

The month of January is now coming to a close. Many things happened during that time.

Dr. Anderson made his visit to the health clinic during the last weeks of January. He made his regular examinations. I think most of the students had a chance to see him.

On the afternoon of Jan. 30. The whole school body had an assembly at the gym. This program was presented by "The Rythmn Rascals", from Ketchikan. They played their favorite times on the electric guitars and drums. After the program they had supper here at the Institute dinning hall. After they had supper, some students asked for

UNFAIR TO THE FAIR

"A girl may work from sun to sun,  
But boy's work is never done."  
At times, I think those lines are crazy.  
Most boys really aren't that lazy.

(Taken from Life Magazine)

...Gertrude Snowball

DISCRIPTION OF WRANGELL INSTITUTE

Wrangell Institute is just about  $5\frac{1}{2}$  miles from Wrangell town. The buildings are shuttled together in about one acre. They seem like the only buildings for miles around, with the gigantic trees surrounding them.

The enormous mountains are thickly covered with approximately 75 to 150 foot trees. Wrangell Institute is at the bottom of a huge snow-covered mountain.

From here you can look across a wide span of water to see an island sticking out like a sore thumb. It also is covered densely with timber, except for one large spot. This spot on the island looks extremely bare.

A dock stretches out into the waters at the end of the long stretch there is a turn in the dock which in a 45 degree angle.

...Peter Buck

On a bright sunny day Wrangell Institute looks so pretty with those beautiful, huge trees on the north, west and east side of the campus, which has eight buildings. Children playing happily on the trimmed, green, brownish grass make it even more beautiful. To the south is the calm, dark, blue bay which glitters like diamonds, across this bay the evergreen-covered mountains with snow-covered trees at the

top make everything look so peaceful. Even the big, long, black dock near the shore adds beauty to the scenery.

As evening comes and the sun begins to set at the tips of the mountains it makes pretty colors against the beautiful blue sky, and the day passes.

...Carol Curtis

I think one of the most beautiful sights I have ever seen in Wrangell is the scenery overlooking Shoemaker Bay. The best time I like to stare at it is in the morning after breakfast. It is a perfect scenery for someone; who is a skillful, patient artist to paint. The scenery consists of dark, low mountains, calm serene bay, and perfectly-shaped branched trees. Also, the one bright street light adds more to it.

...Susan Tabios

**More About** GROUP H

This week-end there will be a most exciting game in Mt. Edgecumbe. The A Squad is going over to play the Edgecumbe B Squad braves.

We have been practicing very hard since our last game in town. Our coach wants us to have enough energy to play well.

There will be lots of things to do after the basketball season is over. Our school days are disappearing. We have only a few weeks of school and we will be flying home. So some of us should settle down and start studying before school is over. Whether we go to Edgecumbe or not now is the time to learn as much as we can.

...James Norton

Roslyn \_ Olinka

After I finish high school I would like to become a nurse and work at the P. H. S. Hospital at Anchorage, Alaska. If I don't, I would like to travel all over the world and meet different kinds of people and see many different places.

Lucille Tevuk

For my future occupation I expect to become a mechanic.

Larry Evanoff

My ambition is to be a typist in the Bethel P.H.S. Hospital or some other place where I can do typing.

Lucy Nicolai

My only ambition is to become a mechanic or a carpenter.

Mark Jack

My ambition is to be a secretary or a nurse.

Gloria John

My ambition is to try and go through school or far as I could, at least till the point I want to be. Then I will carry my life out.

Peter Buck

My ambition is to become a registered nurse and work at the St. Joseph's Hospital at Fairbanks, Alaska. But first I want to finish high school if I can.

Ellen Williams

After I finish high school or college I would like very much to become a housewife or a nurse.

Rosaline James

## GOOD MANNERS

# ROOM B

We need to keep our manners. But some don't have good manners. Some play. Then we have bad manners. But some don't play then we have good manners. Our table study, then we get to go first. Sometimes we stay after school and we work arithmetic and do reading. Here are some of the rules we made. I will be a good citizen. I will not fight in school. I will not talk back when I am corrected. I will not write on the tables. I will keep my room neat and clean. I will obey all the rules. I will not talk when others are talking. These are not all the rules but I will stop here.

....Winifred Demientieff

We have good manners at school. I like to have good manners. We cannot talk while someone is talking. We cannot fight in school. We cannot write on the books and tables. We will not call people dumb. I will use good manners at all times. I will not write on the board unless my teacher tells me to.

Alma

## JOLLY DEPENDABLE JINGO

I am the waste can man at home. Sometimes I don't like the job, but I hurry and do it. Mother says that I am dependable. So, you call me Jolly Dependable Jingo.

Is your middle name the same as mine? In December, please remember to make safety your middle name. I am A+++. I hope you are, too, A+++, and kind. A+++ is mannerly. A+++, you are a take-turn-Tony.

Martha Painter

## GOOD MANNERS

Do you have good manners in class? We are trying to have manners in school all the time. We should be good citizens too, and work hard. Keep your room clean.

## SCIENCE BOOK

My science book is about animals. It is about birds, chickens, cows, dogs and deer.

....Debra Deacon

## ARITHMETIC WORK

# ROOM C

I like to do arithmetic work in school. It is fun to work. I like to add better than subtract. I learned a lot about arithmetic when I first came here. Three years ago I didn't know how to add or subtract.

Then I soon knew what adding and subtracting were. But I am still not so smart. I wish I was in the Ketchikan school.

Frank Jones

## CUB SCOUTS

The Cub Scouts went on the Japanese ship on Wednesday. The man on the boat gave us some apples. He showed us where the men drive and where they put logs. We went upstairs and saw the men putting logs in the boat. We went downstairs to see the motor.

Donald Stickman

Mary Afcan returned from the Edgcombe hospital. Her little brother came home, too.

Mary Thompson

In the Girls' Dorm we saw a man and a woman from Sweden. They came to visit at Wrangell. They cannot speak English. They have a different language from ours.

Bertha Passamika

Mr. Frank Waskey died at Oakville, Washington. In 1906 Mr. Waskey was Alaska's first delegate to congress. He was 88 years old and he had lived at Dillingham many years. When he got old he moved to Washington state.

Eugene Asicksick

Our legislature is meeting at Juneau now to make laws. They will be there about two months. They are from all parts of Alaska.

Natalia Macar

# ROOM D

We had an Assembly Program. Carl Nelson was our announcer. We learned some new songs. Kawan Mixsooke read the story of Hansel and Gretel, while Thomas Ablowaluk and Yako Alexie turned the pictures on a box. We called this our moving picture box. We tried to speak loud and clear so those in the back may hear us.

We described animals, the boys and girls guessed what we were.

It was fun doing all this.

Frank Prince

We went to Mrs. Dow's classroom. We saw interesting displays on the walls, we looked carefully at these pictures, this really helped us to understand nouns, pronouns, and verbs.

We looked through a microscope and saw some cells.

There were neat maps on the walls. These maps were of Canada and made by Mrs. Dow's pupils.

Balassa Evan

We are making Valentines and Valentine baskets. We will draw names and exchange cards. The girls are decorating a box with red paper. They are putting hearts and cupids on the box. We will open the box on Valentines Day and have fun reading the love verses.

From your Valentine.

Carl Nelson

Yako Alexie is absent from our room. He went to Mt. Edgecomb where he will enter the hospital for an extended stay. We wish Yako well and hope he will be back with us soon.

Evan Petluska

Mother Owl: I'm worried about Junior.  
Papa Owl: What's the matter?  
Mother Owl: He doesn't give a hoot about anything.

ing duck soup and caribou soup, but we will get to go home soon. We will be there to pick berries in the summer time. We pick salmon berries, blackberries, blueberries, and cranberries. When I think of them it makes my mouth water. I hope I will be home just in time to pick berries.

..Vera Balwin

Dorothy & Arlene

# GROUP E

## SPRING FEVER

Spring time is almost here and every is smiling and even the teachers and matrons. The days are getting longer, and we will be staying out till the street lights turn on.

It will be good to head for home again. We have about 14 weeks before we go home. I bet some of the students won't want to part with their boy friends and girl friends. We will all be staying up later when we get home.

I just "can't wait" for May and the spring time. Then, we will all get to see our parents and brothers and sisters. I also "can't wait" for some good Eskimo food. I wish to thank all of the people at Wrangell Institute for a nice year. I hope everybody has a nice spring and summer.

..Barbara Cleveland, Lottie Sheldon,  
Emily Adams

Now is the time for spring fever as every body should know. This year is going by so fast, I guess it is almost spring already. Many boys and girls get spring fever, and I guess I'm one of them. Many of us will snap right out of the spring fever when we get to our home town.

Every minute, every second counts for the days to become shorter, and that brings the time closer to going home. We wish everyone a happy time at home.

...Patsy Hunnicutt, Irene Susook

At home in Kivalina, Alaska we have a nice spring. But, sometimes it gets dirty, muddy, and water all over. The lagoon is very pretty when the ice starts melting. We hear wild ducks, geese, and crowbells making noise with their wings when they fly over us. Sometimes men go hunting ducks in the ocean. Sometimes they are lucky and sometimes not so lucky. Sometimes men would come home saying, "Tin-mate, koo-lau-jaw-va-loo-tin, koo-jick-see-loo-ting," Which means "Ducks fly over very high." I wish I was home eat-

Wrangell Eagle, February 1964

## BOOK REVIEWS

Kathleen Korpusik

ANNIE OAKLEY, by Edmund Collier (Grosset & Dunlap): Annie started when young and became a famous woman shooter. She also got married to another famous shooter who showed shows of his shooting with a friend.

The friend died and Annie became the shooting partner.

She and her husband joined the Buffalo Bill show group.

They also went to England and other countries to show shows of themselves. She became famous that way.

Annie died in America.

...Olinka Nicolia...

GIRL IN BUCKSKIN, by Dorothy Gilman Butters (Macrae Co.): This is about an orphan girl Rebecca Pumroy. Rebecca ran away with her brother Eseck who was four years older than she was. They ran away from the Leggetts family because Mr. Smeed, a very rich man. Mr. Leggetts gave him premission to marry her.

Mr. Smeed was nearly 50 years old and had been married four times and had eight children. Eseck did not want Rebecca to marry him because he knew that he was an evil man.

Considering all of these they ran away into indian country and was adopted by a tribe. With this tribe, Rebecca and her brother lived in a cave.

One day an indian friend got killed by the white men and Eseck went away to fight the white men to revenge his friends death.

Read and find out how this interesting story had its ending.

...Carol Curtis...

IGLOO TALES, by Edward L. Keithan and illustrated by George Ahguphuk (Department of the Interior) The book relates a series of Eskimo tales of long ago. In each story it seems like there are witch doctors or some enchantment.

Some of the stories take place in Kayukuk, Wales, Diomed Islands, etc.

I like the book because it is very exciting and interesting.

...Robert Adams...

Kathy & Frieda

## EDITOR'S BOX

Frieda Shanigan

### SPECIAL GAME

On Friday, January 24, both the A and B Squads went to town to play their last basketball game. The main reason for playing the game was, they wanted to make enough money, so that at least 10 boys could go to Mt. Edgecumbe and play against the Freshmen basketball players there.

55 girls and 55 boys were allowed to go at 25¢ admission. There was a great turnout and quite a few people from town also attended the game. We lost both games but we did make at least \$55.00 for the boys trip to Edgecumbe. The boys will leave on February 5th and 6th and will stay in Edgecumbe until Sunday, February 9th and 10th. We certainly wish them a lot of luck.

### JANUARY BIRTHDAY DINNER

The theme for the dinner was "The Circus." Chicken, mashed potatoes, salad, peas, bisquits, and icecream and cake was served. The cake was very pretty with circus animals on it.

Mrs. Johnson, one of the persons who works in dining hall made very cute circus cups. They were filled with popcorn and peanuts.

Mr. Doane and Mrs. Johnson were the staff members this month who celebrated their birthdays with us. We listened to circus music which was recorded on a tape.

We, who had our birthdays this month, wish to express our thanks to each and everyone of you who helped to make this a very happy birthday for us.

### WORD PICTURES CONTINUED...

At the base of the building a beautiful green lawn catches the eye and adds to the pretty scene. A couple of flags wave about in the gentle breeze as if to say, "All is Well."

Wrangell Eagle, February 1964

# ROOM F

## B SQUAD

The last time the B squad played was on the 24th of January. This was a defeat to the Eagles. They lost two points when they played the Junior High School. So far they won 4 times and we won 3 times. The B Squad hopes to have another game with the Junior High School in the town of Wrangell, Alaska.

.....Daniel Douglas  
Mischa J. Auliye

## INTERMURAL BASKETBALL

Sunday afternoon, February 2, 1964, there was a basketball game. The Vikings played against the Warriors, and the Chilkats against the Wolves. The first players were the Chilkats and the Wolves. The Wolves won the game. The score was 55-77. The second game the Vikings played against the Warriors. The Vikings won the game. The Vikings won by two points, 51-53.

.....Zachariah Olick  
Elia Epchook

The Intermural basketball games are the best for practice. The Malesutes are one of the best winning teams of the year. They hope to be the best throughout the three and a half more months of the season.

.....Marius Hofseth

## WE VISIT

Mrs. Johnson invited the Pen Pal Club to her house. At Christmas time the children of San Rafael, California school sent us a tape on which they told stories. After we had listened to it, Mischa Auliye told an Eskimo story on the tape. We will send the story to the boys and girls in San Rafael. Mrs. Johnson served us cookies and milk before we went home.

.....Hannah Lott

## GIRL'S DORM

In the girl's dorm they changed to new details. We change to new details every month. Mrs. Stokes calls out the girl's name for the new detail. Some of the girls in the dorm don't like their details for this month. My detail is the Recreation Room back center. I have to polish and sweep the floor before I go to school.

.....Carolyn Kotongan

## SCIENCE

We have been seeing several filmstrips about famous scientists this month. One of the filmstrips was about Robert Koch. He was a German doctor. Robert Koch discovered the germ that causes tuberculosis. He was one of the world's greatest bacteriologists. Louis Pasteur was another great scientist we saw on the filmstrip. He discovered and proved that infectious diseases are caused by germs.

## BOY'S DORM

In the boy's dorm the boys clean up their own sections. Each boy has his own part to do. After breakfast the boys do their details. Also, after lunch time some boys have their regular details to do. After supper "mail call" is open from 6:00 P.M. to 7:00 P.M.

The recreation gym in the Boy's dorm is always open after lunch and after supper. At 8:00 P.M. from Monday through Thursday there is a social hour. From 9:00 P.M. to 9:30 P.M. some boys have details. Then the matron checks to see if every boy is in bed.

....Fred Tukrook

## CLASS ACTIVITIES

On Friday the class president called a meeting at 3:30 o'clock. We discussed the matter of electing a person to pass out the supplies for school work.

The class passed a motion made by Daniel Douglas to have another duty added to those of the Room Committee. This duty is passing out paper and other supplies when needed. A person will be appointed each week the same as the other members of the Room Committee.

Another action taken by the class at this meeting was that students will not move about the room during recitations.

....Helen Norton

# OFFICE NOTES

## SUPERINTENDENT.....

Mr. Watkins just came back from another business trip in Anchorage. On his way over he was held up in Yakutat for six and one-half hours, because of airplane trouble.

Then he continued his trip to Anchorage, had weather trouble, and couldn't land right away. They circled the airport for a while, then finally landed. He took care of his business in Anchorage, and left on Monday morning for his trip back for Wrangell. On his way back he stopped at Juneau and boarded a Coastal Ellis to Petersburg.

Again he was held over. His flight was held over because of weather conditions in Wrangell from Mt. Edgecumbe.

The boys were asleep when Mr. Watkins boarded the ferry and when they woke up they thought they saw a ghost because they wondered how Mr. Watkins got on the same ferry.

Just the same they all got back in one piece, regardless of all the troubles, they had a nice trip.

Mr. Watkins also met several exstudents of Wrangell Institute at Mt. Edgecumbe.

Jenny Ludecker

## PRINCIPAL.....

Your Student Council has purchased ten new records to be used at the school dances. Frieda Shanigan, Kathleen Korpusik and Robert Nelson were on the committee that selected these records. Seven records have arrived and the Student Council hopes you will enjoy dancing to them.

Names of the records recieved, "Donna The Prima Donna" & "Your Mine" by Dion Di Mucci; "Huntington Flats" & "Popcicles & Icicles" by The Mermaids; "What'd I Say" by Ray Charles; "Daisy Petal Pickin" & "When My Tears Have Died" by Jimmy Gilmer & The Fireballs; "Love, Love Go Away" & "Forget Him" by Bobby Rydell; "As Usual & Lonely, Lonely, Lonely Me" by Brenda Lee; "I'm Leaving It Up To You" & "That's What I Like About You" by Dale & Grace.

The Yearbook committee completed and submitted the make-up of our Wrangell Eagle to the publisher. The committee is to be complimented on their work and ability to meet the deadline.

Alice & Kathleen

A total of 215 yearbooks were ordered by the students and staff.

The Student Council gave the basketball team \$35.00 for the purpose of buying a nice meal on the ferry. We hope the team had a good trip and enjoyed their visit to Mt. Edgecumbe.

The Surgeon General's report on the hazards of smoking has definitely associated smoking with lung cancer and other causes of poor health.

Many people have stopped smoking and many more are trying to stop smoking. People who have never smoked are very lucky because they do not have to worry about cigarettes injuring their health.

The students at Wrangell are not permitted to smoke. We want everyone to practice good health habits and stay well. If you did smoke before you came to Wrangell Institute you will be doing yourself a big favor by not starting again after school is out.

## DEPARTMENT HEAD GUIDANCE.....

A new shipment of Wrangell Institute sweat shirts will arrive soon. They are Navy Blue with Gold lettering. When they arrive, the dorms will be notified.

With spring just around the corner many activities are being planned for the students. These activities will include baseball, track, and other outdood games. There are projects being planned which w will require the students assistance, such as constructing a picnic area, landscaping the campus, cleaning up the campus and many others. The gym will be opened in the afternoons after school forthe smaller students, and in the evenings for the older students.

All of these thing and many more will come into being with the cooperation of the students.

Wrangell Eagle, February 1964

## More About

GROUP E

### VALENTINE'S DAY

Valentine's Day is coming closer and closer. It is on Friday, February 14th. Valentine's Day started a long time ago when a cave man was truly in love with this cave woman. So he decided to give her a heart which was 12 X 12 feet. This story is very old and will continue to be told for years.

Also in February is Lincoln's birthday on February 12th, and Washington's birthday on February 22. ...Innokenty Lestenof, Alvin Lieb, Harry Mann...

### TELEPHONE IN ROOM E

We've been studying about the telephone in Room E. Our teacher brought us some toy telephones, and we have borrowed a real phone from the telephone company in Wrangell. We are to mess around with them and use them in our classroom. We learned many things about the telephone. We are going to keep the play telephones until the end of the year.

### HOBBO DANCE

There was a dance in the gym last Saturday. Everyone that was 13 years and older got to go. Everybody dressed like a hobo. A hobo dance is a dance where you don't have to look so neat. You could wear old or new clothes if you wanted to. Most of the boys and girls did not dress up for the hobo dance. They just wore their ordinary play clothes. The idea was to look like a hobo.

...Martin Inga & Tony Susook...

Atka. By 1:00 p.m. we were on the ferry. We did not leave until near 3:00 p.m.

Tuesday morning at 4:00 we arrived in Wrangell. After 5 days the Eagles got back on Wrangell ground.

## AROUND With SPORTS

Albert Kookesh

The Eagles of Wrangell Institute will leave for Mt. Edgecumbe on Friday morning the 7th of February. They plan two games there. The Eagles will be playing the preliminary games against the freshmen at Mt. Edgecumbe.

Boys making the trip are Jeff Klanott, Alvin Williams, Albert Kookesh, Mark Jack, Walter Tooruk, Anthony Lekanof, Norman Mendelook, George Beaver, Robert Omnik, and Reuben Towksjhea. Only ten boys and the coach, Mr. Brown, are going to Mt. Edgecumbe to represent Wrangell Institute.

### EAGLETT'S DISBAND AFTER LAST PRACTICE

The Eagletts or B Squad of Wrangell Institute held their last practice. The Eagletts have a 3 won 4 loss record. The Eagletts have no more games coming up, so the practice was called for the season. The Eagletts played hard all season.

### TO MOUNT EDGECUMBE AND BACK

The Eagles, consisting of 10 boys, Mr. and Mrs. Brown left Friday morning on the 7th of February. Two flights were taken. Mrs. Brown and seven boys left on the first flight direct to Mt. Edgecumbe. It took one and one-half hours to get there. Mr. Brown and three boys came in about 4:30 p.m., after flying first to Ketchikan and then up to Mt. Edgecumbe.

The Eagles played two games at Mt. Edgecumbe against the freshmen. The Eagles lost both games to bring their record to a 4 win 5 loss total for the season.

On Monday morning we were all down in the gym at 10:00 o'clock. We got a ride out to the ferry terminal outside
